SUMMARY REPORT

EVENT – 1: PASS THE PLOT – THE STORY RELAY CHALLENGE

1. Event Details

Event Name: Pass the Plot – The Story Relay Challenge
Date: 22-August-2026
Time: 10:00 AM – 12:00 PM
Venue: Room No. 247, Department of CSE (Data Science) Lab
Event Type: Team Event – 2 Members
Organized by: Creative Club
Academic Year: 2026–27

2. Summary of the Event/Activity

Pass the Plot – The Story Relay Challenge was organized as a team-based creative storytelling activity aimed at encouraging students to develop their creativity, imagination, teamwork, and quick decision-making abilities.

Each team consisted of two members. Participants were provided with a starting plot or story prompt, and the team members took turns continuing the story within a limited time. The participants were required to adapt to the ideas introduced by their teammates while maintaining continuity and narrative flow.

The stories were evaluated based on **creativity, continuity, imagination, originality, narrative flow, and effective teamwork**. The activity provided an engaging platform for students to construct unique narratives while responding spontaneously to unexpected twists and ideas.

3. Total Number of Participants

Total Participants: 76

4. Winners

The following students secured the top three positions in the competition:

First Prize:
G.R.N.S. Nikhil (25501A4418) and **S. Rishika (25501A4463)**, 2nd Year CSD students, secured the **First Prize**.

Second Prize:
M. Harshal (24501A4235) and **K. Upendra (24501A4227)**, 3rd Year CSM students, secured the **Second Prize**.

Third Prize:
C. Taraka Ranga Raveendra (23501A4214) and **N. Karthikeya (23501A4226)**, 4th Year CSM students, secured the **Third Prize**.

5. Details of Judges

Judge(s): T. Deepa
Designation: Assistant Professor
Department: CSE (AI & ML)

7. Photographs of the Event

8. Outcomes of the Event/Activity

The event successfully achieved the following outcomes:

- Encouraged **creative thinking and imagination** among students.
- Improved students' **storytelling and narrative-building skills**.
- Developed **teamwork and collaboration** through the two-member team format.
- Enhanced **quick thinking and decision-making** under time constraints.

- Encouraged participants to adapt to **unexpected ideas and situations**.
- Improved **communication and expression skills**.
- Provided students with an engaging platform to demonstrate their **originality and creativity**.
- Promoted active participation and interaction among students from different years and programmes.

EVENT – 2: BEYOND THE MARK

1. Event Details

Event Name: Beyond the Mark
Date: 22-August-2026
Time: 01:30 PM – 03:00 PM
Venue: Room No. 247, Department of CSE (Data Science) Lab
Event Type: Individual Event – 1 Participant
Organized by: Creative Club
Academic Year: 2026–27

2. Summary of the Event/Activity

Beyond the Mark was an individual creative design challenge organized to encourage students to explore the intersection of **creativity, branding, Artificial Intelligence, and future-oriented thinking**.

Each participant was assigned a well-known brand through a lucky draw, along with a theme revealed during the event. Using AI image-generation tools, participants were required to reimagine how the assigned brand could evolve by the year **2050** and create a futuristic logo and brand identity.

Participants were encouraged to incorporate concepts such as **future technologies, Artificial Intelligence, sustainability, evolving lifestyles, and emerging trends** into their designs. The activity provided students with an opportunity to transform conventional brand identities into innovative and imaginative futuristic concepts using AI-assisted creative tools.

3. Total Number of Participants

Total Participants: 38

4. Winners

The following students secured the top three positions in the competition:

First Prize:
M. Sonu (23501A4434), 4th Year CSD student.

Second Prize:
J. Jaswanth (24501A4420), 3rd Year CSD student.

Third Prize:
K. Upendra (24501A4227), 3rd Year CSM student.

5. Details of Judges

Judge: Dr. K. Pavan Kumar
Designation: Sr. Assistant Professor
Department: CSE (AI & ML)

6. Photographs of the Event

7. Outcomes of the Event/Activity

The event successfully achieved the following outcomes:

- Promoted **creativity and innovative thinking** among students.

- Encouraged students to explore the **practical applications of AI image-generation tools**.
- Developed **visual thinking and design skills**.
- Enhanced students' ability to create **futuristic concepts and brand identities**.
- Encouraged participants to think about the impact of **AI, technology, sustainability, and changing lifestyles** on future brands.
- Improved students' ability to combine **technology with creative design**.
- Provided practical exposure to **AI-assisted content and image generation**.
- Encouraged students to experiment with new ideas and develop **original and imaginative solutions**.
